

## AFTER SUFFERING A WHOLE YEAR

Mrs. King Was Made Well by  
Lydia E. Pinkham's Veget-  
table Compound.

Iola, Kansas.—"I was a constant sufferer from female troubles for about a year. I had pains in back and stomach, in fact all over me, and was all run-down. A friend of mine was cured of the same trouble by Lydia E. Pinkham's Vegetable Compound. I took it and it gave me health and strength and made a new woman of me. I can not praise your Vegetable Compound too highly, and you may publish my testimonial as it may be the means of helping some other suffering woman."—Mrs. Irene King, 105 West Campbell St., Iola, Kansas.

Every ailment or unsolicited testimonial on file at the Pinkham Laboratory, many of which are from time to time published by permission, are proof of the value of Lydia E. Pinkham's Vegetable Compound, in the treatment of female ills.

## Mrs. Anderson Fails To Appear In Court Against Mrs. Warren

Mrs. J. B. Warren, charged with larceny of a coat from Mrs. Anderson in the Hotel Gayoso on Dec. 25, 1918, was acquitted by a jury in First criminal court on Monday on recommendation of the state's attorney. The prosecuting witness failed to appear to prosecute the case after it had been set peremptorily for trial Monday.

Mrs. Anderson alleged that she saw Mrs. Warren wearing a coat which she identified as one stolen from her at a hotel in Hot Springs, Ark., while at the races.

Judge Richards said he was tired of persons having other individuals and then failing to appear to prosecute and making a plaything out of the courts.

Mrs. Warren's husband is under indictment, charged with conspiracy to commit larceny. It is alleged that he and others entered the hotel in Hot Springs, Ark., to steal a coat, representing themselves to be deputy sheriffs in search of liquor.

EXQUISITE PRIZES HAVE BEEN PROCURED FOR  
WINNERS IN PROCESSION OF FLOWERS CONTEST

—Photos by Poland.

Handsome loving cups, trays, vases, etc., have been purchased by the floral parade committee of the Centennial celebration for winners in the procession of flowers, which is to feature celebration festivities Tuesday afternoon of next week. The prizes have a total value of nearly \$1,000. Each is of solid silver, large and exquisite in design and workmanship.

A majority of these prizes are to be awarded for the most artistic pleasure cars in the procession, all of which, however, must have a floral setting, though it is not necessary that they be completely covered with blooms. The remainder of the prizes go to the most artistic floats. All cars and floats entered must be free of any advertising matter. Where the entry is by an organization instead of an individual, a brief announcement of the fact is permissible, but the name must be artistically displayed.

Many social and civic organizations throughout the city and county are arranging to compete. Entries must be filed with the committee at the earliest possible moment either at headquarters, 24 North Second street, or with Mrs. Homer K. Jones, the committee, at the residence, representing themselves to be deputy sheriffs in search of liquor.

## HERE and THERE

Mrs. David A. Field, of Prescott, Ariz., formerly Miss Ruth McCall, is visiting her parents, Mr. and Mrs. J. C. McCallen, 2023 Oliver street.

Miss Ruth Frazer Brown is at home, after an absence of several weeks spent in Washington, D. C., as a delegate to the D. A. R. congress.

Miss Ardath Dale Black has returned from San Antonio, Tex., where she attended school, and is at home at 1415 Agnes place.

Sgt. W. Elwood Lacey, recently home from France, will arrive Monday morning for a visit to his mother, Mrs. W. E. Lacey, at the Hotel Chicks.

Mrs. Anna Chase Donohue has returned to the city after an absence of two years spent with her daughters in Washington and Frankfort, Ky. Mrs. Donohue is one of Memphis' oldest and best-beloved residents, and her many friends will be glad to welcome her home again.

A. E. Walker, superintendent of the Rock Island railroad, with headquarters at Little Rock, Ark., has returned to Little Rock after making an inspection trip.

Mrs. John W. Falls arrived Sunday night for a few days' visit in Memphis, and is at home to her friends at the Hotel Chicks. Memphis was formerly the home of Mrs. Falls, whose wide popularity has never waned, and friends will be glad to see her again, though sorry of so short a visit.

Mr. and Mrs. Bluford Richards, of Washington, D. C., arrived in Memphis Monday morning to be the guests of their parents, Mr. and Mrs. Jerome E. Richards, 423 Lacey avenue. Friends are glad to know that Mr. Bluford Richards has recovered from his recent serious illness.

Mrs. J. Warren King and little daughter, Pattie Sue and Warren, have returned after a very pleasant visit with friends and relatives in Mississippi.

J. G. Blount, Jr., ensign in the naval aviation service, who has been stationed at Miami, Fla., has received his discharge from the service and arrived in Memphis Sunday night.

Martin J. Condon is in New York, where he is attending a meeting of the directors of the American Snuff Company and attending to other business affairs.

Business Men Will Be Urged to Offer More Opportunities.

A house-to-house canvass of the business district was commenced Monday by L. E. Swinbrode, who is working in connection with the Chamber of Commerce and the United States employment service, 102 South Court avenue.

Little difficulty is experienced by returning soldiers who are skilled artisans in getting positions, but according to Mr. Swinbrode, employers should give more opportunities to men seeking positions as bookkeepers, typists and in other clerical pursuits. The campaign inaugurated Monday, although with the specific object of obtaining employment for soldiers returning from Memphis, does not necessarily mean that effort is in any way directed toward getting employment for soldiers outside of Memphis. Every possible position open should be listed by employers both in and out of the city.

workers of the government declare. Still a special effort will be made to get the campaign under way to give home boys jobs at home.

It is an essential that the boys be encouraged with the necessity of registering at the United States employment service as it is for employers to do so. Every man who is in a big way, there is no inclination to shrink it, so the boys themselves as well as the employers are urged to register their names known as the campaign opens, so that the exact magnitude of the task may be realized and the campaign may be carried out.

Mr. Swinbrode, who was 23 months in the service, it is of special interest to him, is believed to be especially qualified for the work of getting soldiers employment.

Neighbors, hearing Mrs. Waters' cries, went to her assistance. Policemen Oliver and Robinson, of the emergency squad at the Central police station, answered the alarm in a police car and, although the Waters store is beyond the city limits, searched the vicinity of the robbery, but without result.

Mrs. Waters said she had never seen the negro before. He was described as being about 40 years old, black, tall and slim and wearing a black hat and dark clothes.

CITY'S ANNUAL BUDGET NOT YET COMPLETED

The city's annual budget of estimated expenses is not yet completed. The heads of departments all made their reports some time ago, but the completion of those of fire and police.

Salaries of both police and firemen were increased by legislative acts, and the clerks of the two departments have not completed the pay roll figures for the period from April 15, when the acts became effective. Firemen will receive the same pay as policemen—\$100 a month, with an increase of \$5 a month for every additional year of service over one year, until they draw \$120 a month as the maximum.

These pay rolls will vary from month to month, as some of the men reach the length of service upon which they are to draw higher pay. C. W. Miller, vice-mayor, said Monday that the police and fire department estimates will probably be completed this week, and that the budget ordinance should be ready for introduction on first reading a week from Tuesday.

SWITCH TO FACTORY.

The Frisco railway will begin work this week on the switch to the new factory site of the Belmont Candy company, Colorado and Kentucky streets. As soon as the track is laid the candy company expects to start the construction of its new \$125,000 candy factory.

FIRE DOES DAMAGE.

Fire of unknown origin at 10 o'clock Sunday night, that started in the home of Wes Green, negro, 224 Bertha avenue—beyond the city limits—was a good way to result in a general conflagration in that section, when three companies of Memphis firemen arrived. Green's house was damaged about \$200 and the home of Jim McGee, negro, 238 Bertha avenue, suffered \$200 damage.

Reduction of 15 Per Cent in Popular Sizes Made by "Big Four."

The sudden advertisement of a general reduction in prices of tires by the "big four" of the American tire manufacturers, which has startled and delighted the automobile owners of Memphis, is the result of the return of the tire factories to normal production. It was stated by the representatives of the local branches of two of the big companies, the Goodyear Tire and Rubber Co. and the United States Rubber Co., the Firestone Tire and Rubber Co., and the B. F. Goodrich Tire and Rubber Co. Statements made by H. S. Wheeler, local manager of Goodrich, and F. M. Gemmill, local manager of Goodyear, as to the cause of the price reduction. The government restrictions on the importation of rubber, which reduced it to about 5 per cent of normal, have been removed. Government contracts for tires and other rubber goods have been largely filled or canceled. Having sufficient raw materials and relatively low government contracts, the price of tires is being turned out daily. To put these on the market with the proper rapidity it is necessary to lower prices.

The reduction is coming to the public inasmuch as successive advances during the last year put tires up about 25 per cent. Production of tires was cut in most cases more than 50 per cent last year and many of these tires were taken by the government, making a still smaller per cent available for the general market.

Normal Output of Tires Causes Cut
